

**Open sound has never been such a private experience.**

With the K550s, AKG® engineers have struck a masterful balance between the noise-isolating qualities of closed back headphones and the spacious, dimensional sound of an open-back design – creating reference-class headphones ideal for private listening both at home and on the go. 50mm drivers, the largest in our product line, deliver great AKG sound from your hi-fi system or virtually any portable device. The large ear cups and new headband design ensure an amazingly comfortable fit, and the

**FEATURES**

- ▶ Reference AKG sound
- ▶ Closed-back design for a fully personal listening experience
- ▶ Lightweight and comfortable for hours of continuous listening
- ▶ Flat foldable for easy storage
- ▶ Detachable cable for ultimate convenience

## FEATURES AND BENEFITS

- ▶ **Reference AKG sound**  
The K550MKIII headphones bring you the award-winning AKG reference sound that's deep in bass and rich in mid-range.
- ▶ **Closed-back design for a fully personal listening experience**  
The closed ear cups ensure an immersive yet open sound performance, with very low sound leakage levels.
- ▶ **Lightweight and comfortable for hours of continuous listening**  
The K550MKIII's lightweight design and super-soft ear pads mean you can listen to your heart's content without any decrease in listening pleasure.
- ▶ **Flat foldable for easy storage**  
The 2D Axis folding mechanism allows the AKG K550MKIII to be easily stored and carried along.
- ▶ **Detachable cable for ultimate convenience**
