

A close-up, black and white photograph of a Bowers & Wilkins P5 Mobile Hi-Fi Headphone. The image focuses on the ear cup, which has a brushed metal finish and the 'Bowers & Wilkins' logo engraved on it. The headband is also visible, showing a similar metal finish and a dark, textured padding. The background is dark and out of focus.

Concert for one

Get closer to your favourite music wherever you are with P5, the noise-isolating headphones from Bowers & Wilkins. Close to 50 years of innovation in acoustic design is wrapped up in the P5. And thanks to its natural, lifelike sound and a luxuriously comfortable fit, it makes longer listening sessions a pleasure. Think of it as your own personal concert – to go.

Listen for longer Gimmicky effects like exaggerated bass or artificially enhanced treble quickly become tiring with extended listening. The P5's natural audio performance brings you close to the sound of the original recording, as you were meant to hear it. Which means you can enjoy your favourite music for longer.

Noise isolation A closed-back design with rigid metal faceplates and sealed earpads ensures that all the detail and dynamic range of your music is kept intact, with minimum outside interference. At the same time, you'll hear just enough ambient sound to preserve a sense of place. Perfect for listening to music on the go.

Made for iPod® No-one knows how to get great sound out of your iPod better than Bowers & Wilkins, makers of the award-winning Zeppelin sound dock. P5 gives you the same incredible sound quality on the move, and comes with an Apple-approved cable, for speech and device control, perfect for iPhone™.

Life-long comfort P5 is very easy on the ears. The ergonomic design is married to a headband and earpads crafted from the finest-quality sheep's leather from New Zealand. Durable and hardwearing, yet remarkably soft and supple, it makes long listening sessions feel more comfortable than ever.
