

Cabasse

ANTIGUA MC170

SOUND EXCELLENCY

Either placed on shelves or on stands, The new Antigua MC170 impress with their easy sonic integration and musical versatility. The three-way speaker is fitted with a new coaxial two ways driver, for a wide dispersion and uncompressed sound reproduction, homogeneous in every direction.

Cabasse

ANTIGUA MC170

COAXIAL MIDRANGE-TWEETER

The new two-way midrange/tweeter of the MC170 range is a development of the unit responsible for the continuous success of the Cabasse Eole coaxial satellite. It offers a faithful reproduction of timbres and provides a soundstage with unrivaled realism and depth in its price segment, for both stereo and multichannel use.

HIGH EXCURSION WOOFERS

The specific shape of the 17cm (6.7in) driver unit was specifically designed by Cabasse for maximum mechanical rigidity and low-frequency use, which results in a deeper bass without coloration. The voice coil mounted on Kapton is perfectly ventilated: high power handling and its acceleration abilities are outstanding.

HDSE FILTERS

The Cabasse measuring protocol in the anechoic chamber takes into account measurements on the listening axis and at 360° around the speaker for perfect control of the directivity and global power output in keeping with the Cabasse HDSE principle (Homogeneous Distribution of the Sonic Energy). Direct and reflected sounds are homogeneous, the sound stage wide and stable.

SPECIFICATIONS

Position	On Bookshelf / on stand
Ways	3
Drivers	Midrange+Treble: coaxial 2-way 10T15MC Low-frequencies: 1 x 17 cm 17TN20
Cross-over point	700 Hz - 3 600 Hz
Frequency response	60 - 20 000 Hz
Sensitivity1 W / 1 m	88 dB
Nominal Impedance	8 ohms
Minimum Impedance	3,2 ohms
Power Handling	75 W
Peak Power	550 W
Dimensions (h x w x d)	40 x 23 x 30 cm
Weight	9 Kg
Finishes	Black Ebony, Natural Oak Glossy Black, Glossy White
