## Product sheet

HANDCRAFTED  
IN FRANCE

The DIVA UTOPIA loudspeakers are the result of five years of intensive research and development with the aim of combining exceptional sound, sophisticated design, and ease of use. **Designed to meet the expectations of the most demanding audiophiles**, DIVA UTOPIA redefines the high-end sound experience by making it simple and accessible. The perfect blend of innovative technology and elegant design, this **wireless, connected, active hi-fi loudspeaker** delivers uncompromising audio quality.

**Advanced sound architecture:** a 3-way design with a beryllium 'M'-profile tweeter, a 'W' cone mid-bass, and four 6.5" (16.5cm) 'W' bass woofers in a push-push configuration. This combination delivers powerful yet precise sound reproduction, ideal for rooms of up to 80m<sup>2</sup>.

**Unrivalled power:** 400 Watts total amplification power per loudspeaker, spread across three Class-AB amplifiers for the treble, midrange, and bass. Naim Audio has designed the electronics especially to guarantee the faithful reproduction of every musical nuance.

**Cutting-edge wireless technology:** UWB (Ultra Wide Band) technology provides high-definition audio transmission with no losses, compression, and imperceptible latency. The Naim Pulse Platform active model delivers fluid wireless connectivity and seamless integration within a Focal & Naim ecosystem.

**Design and aesthetics:** every detail of DIVA UTOPIA has been meticulously thought out to combine sophistication and durability. The loudspeaker's high-end materials and luxury finishes showcase the essence of Focal excellence.

**Easy to use:** control DIVA UTOPIA effortlessly using our dedicated app, a remote control, or your preferred voice assistant. Enjoy your music through a wide range of connectivity modes, including AirPlay 2, Google Cast, HDMI eARC, optical, or RCA inputs.

**Step into a new era with DIVA UTOPIA**
