

THE SEVENS

POWERED MONITORS

Klipsch®

HDMI-ARC

Using HDMI-ARC, enjoy The Sevens with your TV with no additional cables or remotes using the included HDMI cable.

MID-CENTURY MAGNIFICENT

Incorporating luxury materials such as real wood veneer and tactile switches and knobs, the Klipsch Heritage Wireless series of powered audio systems blends the acoustics and classic design legacy of Paul W. Klipsch with the latest technologies available today.

EXPERIENCE TRUE HIGH FIDELITY – NO RECEIVER NECESSARY

The Sevens powered monitors deliver room-filling sound without taking up much space thanks to a built-in amplifier that is custom-engineered for these high-performance speakers, maximizing output and sound quality.

HIGH EFFICIENCY AMPLIFICATION

The Sevens incorporate individual ultra-low noise amplifiers that are custom designed to maximize system performance and eliminate the need for external amplification. World-class Klipsch engineers picked and tuned the components to be an absolute perfect match throughout, making the system sound incredibly immersive and complete. The Sevens are also bi-amped resulting in improved clarity and output.

PRECISE, CLEAR & HIGHLY EFFICIENT SOUND, PROPRIETARY TO KLIPSCH

The Sevens feature 1" titanium tweeters on Tractrix® horns, a proprietary technology that has been the driving force behind the stunningly precise Klipsch acoustics. Each powered monitor also features a 6.5" long-throw woofer and is ported to provide enhanced bass.

THE MOST VERSATILE SPEAKERS ON THE PLANET

Whether you are connecting to a turntable, television, computer, or smart phone, The Sevens provide the solution. The Sevens come equipped with an integrated phono pre-amp, Bluetooth® 5, HDMI-ARC, digital optical, analog RCA and USB inputs, allowing you to enjoy superior stereo sound from a beautifully crafted tabletop stereo system.

DYNAMIC BASS EQ

As the human ear perceives frequencies differently with variations in output, The Sevens will dynamically match the ear's ability to hear lower frequencies. Typically, only available with audio/video receivers, dynamic volume is a first for Klipsch powered monitors. What you get is powerful bass whether the listening volume is low, cranked up or somewhere in between.

192KHZ / 24-BIT DECODING TO SUPPORT HIGH RESOLUTION AUDIO TRACKS

The Sevens powered monitors also feature 192kHz / 24-bit decoding for flawless reproduction of high-resolution audio tracks from your PC or streaming source.

ADD A SUBWOOFER

The Sevens include a subwoofer output so you can easily add a powered subwoofer.

SPECIFICATIONS

SYSTEM DESCRIPTION	Powered Monitor (pair)
FREQUENCY RESPONSE	39-25kHz +/- 3dB
DYNAMIC BASS EXTENSION	28Hz @ 35% Volume
MAX OUTPUT	112 dB (1M Stereo Pair)
TOTAL SYSTEM POWER	200W Total System Power (400W Peak) 80W LF, 20W HF
HIGH FREQUENCY DRIVER	1" (2.5cm) Titanium LTS vented tweeter with Tractrix® horn
LOW FREQUENCY DRIVER	6.5" (16.5cm) high-excursion fiber-composite cone woofer
ENCLOSURE MATERIAL	MDF with genuine wood veneer
ENCLOSURE TYPE	Bass-reflex via rear-firing port
BLUETOOTH® SPECIFICATIONS	VERSION: Bluetooth 5.0 A2DP Codecs: SBC, AAC, aptX, aptX HD
INPUTS	- HDMI-ARC with CEC - Bluetooth® wireless technology - Phono/Line analog (with switch and ground screw terminal) 3.5mm analog mini jack - USB digital - Optical digital
OUTPUTS	Single RCA line level output for connection to subwoofer
HEIGHT, WIDTH, DEPTH	16.38" (415.9mm) x 8.13" (206.4mm) x 10.88" (276.22mm)
WEIGHT	Primary: 22.3 lbs (10.12kg) - Secondary: 19.9 lbs (9.03kg)
FINISH	Walnut / Black
VOLTAGE	100V-240V 50/60Hz internal power supply with region specific power cords
INCLUDED ACCESSORIES	- Region-Specific power cord (2.0m) - Remote control (with 2 x AAA batteries) 4-conductor speaker cable (4m) 4-conductor speaker cable extension (2m) - USB Type-B to USB Type-A cable (1.5m) - HDMI Cable (1.5m)
