

## PREFACE™

FLOOR STANDING STEREO/HOME THEATER FRONT/SURROUND

ATF  
SERIES

### MARTINLOGAN PERFORMANCE ON A BUDGET

Key to Preface's extraordinary performance is our high-resolution ATF (Advanced Thin Film) driver. Superior in nearly every way to conventional moving-coil transducers (cones and domes) and very similar in most respects to the electrostatics that we've always favored, Preface's ATF driver projects a wonderfully detailed and three-dimensional sound field. Our proprietary Vojtko crossover topology marries the ATF driver to triple high-resolution 6.5-inch woofers with powerfully deep and accurate bass.
