Main platter bearing spindle: stainless steel
Tonearm: 8,6", aluminium
Effective arm length: 218,5 mm
Overhang: 22,0mm
Effective tonearmmass: 8,0 g
Suitable cartridge mass: 3 - 5,5g
Tracking force: 0 - 25mn (recommended for OM10 15mN)
Included accessory: power supply, dust cover, felt mat
Power consumption: 4,5 watts max
Dimensions: 420 x 112 x 330mm (WxHxD)
Weight: 5,0 kg net

Guns N' Roses Recordplayer - Take me down to the Analogue City

Guns N' Roses are icons of big rock music. Whether you grew up with their music or not, it's impossible to not feel the pure energy and emotion in their music. The virtuous musicianship and the honesty in their performances is only aided by the analogue recording and music production of their times. Everything sounds real, everything fits together and everything sounds better than many modern recordings. There's nothing like experiencing all of this again on this great looking and fantastic sounding turntable. The Guns N' Roses Recordplayer is a statement to our love for the analogue music experience.

At its base lies an Essential III, upgraded with an acryl platter, right out of the box. It features high quality and audiophile components, such as an Ortofon OM10 cartridge, a precision diamond cut aluminium pulley, top notch MDF chassis and a built in motor control for optimal speed stability. The acryl platter is not just a sound enhancement. Unique Guns N' Roses artwork is carefully

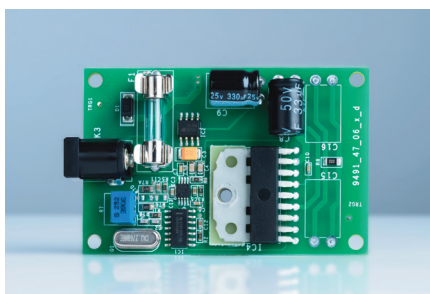

ly printed onto the platter itself. A first for any Pro-Ject turntable, it makes the entire platter glow in a translucent yellow. A dust cover and our high-quality Connect it E phono RCA cable are included in the packaging.

One piece 8.6" aluminum tonearm
Cartridge: Ortofon OM10

Acryl platter with Guns N' Roses print

Built-in DC-powered motor control:
better speed stability with
minimized speed drift

Main platter bearing with low tolerances:
reduced rumble, reduced wow & flutter

High-quality semi-balanced Connect it E
phono interconnect
