Moving Magnet Phono input for turntable connection Wireless aptX™ and AAC Bluetooth

Texas Instruments premium 32-bit/384kHz Digital to Analog Converter

Whether a seasoned audiophile or casual listener, the time has never been better to be a music lover. A near limitless supply of music is at our fingertips accessible via streaming, digital mediums, classic vinyl and more.

Rotel has been designing and manufacturing high fidelity, high quality, high performance audio products for over 60 years accurately rendering audio with exceptional detail and stunning clarity. The RA-1592MKII proudly continues in the tradition and heritage of this iconic brand.

The RA-1592MKII Integrated Amplifier includes circuit design innovations, optimization of audio signal paths and updates to critical power supply components delivering a breathtaking performance with dynamic rhythm and timing.

Utilizing Rotel's best-in-class preamplifier topology and award-winning power amplifier technology, the RA-1592MKII is a no-compromise, size-efficient, all-in-one integrated audio product. The RA-1592MKII delivers 200 Watts per channel into 8 ohms powered by Rotel's in-house manufactured toroidal transformer feeding an array of slit-foil capacitors for rich, deep, controlled, bass energy.

The RA-1592MKII supports your favorite sources including Analog, XLR, Digital, aptX™ and AAC wireless Bluetooth, PC-USB supporting MQA and 32-bit/384kHz PCM, and Moving Magnet Phono stage. Digital to Analog conversion utilizes a Texas Instruments premium DAC with precisely tuned output filter circuits delivering unprecedented acoustic detail, wide sound stage and exacting positioning.

The RA-1592KII is certified Roon Tested delivering the best experience using Roon software so you can just enjoy the music.

Selectable A-B speaker outputs, RS232, Ethernet and 12V triggers ensure seamless integration with control systems.

Convenience, performance and value - the RA-1592MKII delivers.
