### Accessories List

- LIFE BUDS x 1 pair
- Charging Case
- Charging Cable
- This Quick Start Guide
- Storage Bag
- Caps of various sizes

### FEATURES

The charging case includes an internal battery that charges the LIFE BUDS when the lid is closed. They can be charged up to 3 times before the charging case has

Bluetooth Version: 5.0. Enjoy a true high-definition stereo music experience!

Each LIFE BUD has a single multi-function button (MFB) control, a microphone, and an LED indicator. Various cap sizes allow you to choose the most comfortable fit and find the best sound quality.

Use both LIFE BUDS together, or as single units.

### GETTING STARTED

Before use, please read this quick start guide carefully and keep it in a safe place.

Please fully charge the LIFE BUDS before use.

Please regularly charge the LIFE BUDS if you do not use them for a long time (more than 3 months). Please use the supplied charger cable.

### General Operation

**Auto Power on/off:** Open/Close the lid, LIFE BUDS power on/off automatically.

**Bluetooth Pairing:** Pairing is Automatic.

**Shutdown:** Press the MFB button until the red LED is on.

**Answer incoming call/Hang up:** Press the MFB button.

**Play music/Pause:** Press the MFB button.

**Next music track:** Double press the Left MFB button.

**Reject incoming Call:** Press the MFB button to 'Call Rejected' voice and release.

**Phone Transfer:** Press the MFB button for 1 second and hear the sound 'BEEP', it will transfer the current call between LIFE BUDS and phone. (Do NOT press the MFB so quickly, or it will hang up)

**Call Mute Mode:** Double-press the MFB button to mute/unmute voice.

**Note:** Only the Right LIFE BUD has the calling function when both LIFE BUDS are used.

**LIFE BUDS Reset:** Put the LIFE BUDS in the charging case, press LIFE BUD to charging status (red LED on), double-press the MFB button, LIFE BUD reset successfully after blue LED flashes 5 times, then do same for the other one.

### LIFE BUD Charging

1. The Red LED on the LIFE BUDS flashes when the power is low. Please charge the LIFE BUDS soon.
2. Put the LIFE BUDS in the charging case, close the lid, and the LIFE BUDS will start charging (red LED on).
3. The LIFE BUD LED will turn off automatically when it is fully charged.

### Status LEDs

#### Charging Case LEDs

Blue LED on: Above 50% charged.

Red LED on: 25%-50% charged.

Red LED flash: Below 25% charged.

**Note:** If the charging case LEDs are not on when the LIFE BUDS are first inserted, open the charging case lid and make sure the LIFE BUDS are in the correct position.

LIFE BUD LEDs

- Red LED flashing: The battery charge is low.
- Red LED on: Charging (when in the charging case).
- Red LED on momentarily: Power turned off.
- Blue LED flashing very slowly: The LIFE BUDS are working.
- Blue and red LED flashing: LIFE BUDS pairing.

Using both LIFE BUDS

There are two methods to set up the LIFE BUDS, and each may be used:

Method one

1. Make sure both LIFE BUDS are inside the case, and your phone or other device’s Bluetooth is turned off.
2. Open the lid and the LIFE BUDS will auto-power on and enter pairing mode.
3. The left LIFE BUD will flash blue, and the right will flash blue and red and wait for the connection with your phone or device.
4. Turn on the Bluetooth mode on your phone or device, and search for the LIFE BUD on the screen. Click and connect it. When connected successfully, the LEDs on both LIFE BUDS will flash blue slowly.

Method two

1. Make sure both LIFE BUDS are inside the case, and your phone or other device’s Bluetooth is turned off.
2. Open the lid and take out the Right LIFE BUD. The LED will flash blue and red and wait for the connection with your phone or device.
3. Turn on the Bluetooth mode on your phone or device, and search for the LIFE BUD on the screen. Click and connect it. When connected successfully, the LED will flash blue slowly. The first LIFE BUD is connected.
- 4.

Using a single LIFE BUD

1. Make sure both LIFE BUDS are inside the case, and your phone or other device’s Bluetooth is turned off .
2. Open the lid and take out the Right LIFE BUD. The LED will flash blue and red. (If using the Left LIFE BUD instead , first press MFB until the LED flashes blue and red.)
3. Turn on the Bluetooth mode on your phone or device, and search for the LIFE BUD on the screen. Click and connect it. When connected successfully, the LED will flash blue slowly.

Troubleshooting tips

1. If your phone cannot find the LIFE BUDS, please check that the LIFE BUDs are on matching(blue and red LED flashing). If the LIFE BUDs are not matched for a long time, please turn on the LIFE BUDS to match again, or press around three seconds until LED flashes blue and red. Sometimes it is better to reset the LIFE BUDS and the Bluetooth function of the phone.
2. If it is not possible to talk or listen to music while connected successfully: You might need to choose Bluetooth “Mobile Audio” or “Media Audio” when using an Android system, or please choose Bluetooth on call interface.
3. If your phone or device is paired/connected with the LIFE BUDS but there is no sound: Try removing the LIFE BUDS as a Bluetooth device and then pair with your phone or device a second time.

Specifications

Bluetooth	
Bluetooth version	V 5.0
Wireless range	10 meters (with no obstacles)

Channel No.	79
Max Output Power	10 dBm

LIFE BUDS Performance	
Output	10 mW

installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Caution!

The Music Tribe is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment.

Such modifications could void the user authority to operate the equipment

FCC RF Radiation Exposure Statement:

- (1) This Transmitter must not be co-located or operating in conjunction with any other transmitter.
- (2) This Transmitter must be used in accordance with the instructions and it complies with FCC RF radiation exposure limits set forth for nvironment.
