

VIVID audio

B1

Formed from serious rethinking of loudspeaker design, the Vivid Audio B1 loudspeaker is any passionate audiophile's dream.

B1

B1

Ultra high performance, technology and aesthetics

The Vivid Audio B1 is a mid-sized, floor standing model and not your typical square box design, and for a good reason too. Every aspect and component of this loudspeaker has been scrutinized and reinvented to create a dynamic and boxless sound. The B1 features Vivid Audio's patented drivers coupled to tapered tube absorbers for reaction cancelling.
